

OUR World

Decovision was established in Abu Dhabi in 2003 to fill the need for a professional interior solutions provider in the UAE market. With a strong focus on engineering and project execution, Decovision quickly established a reputation for delivering a world class service based on innovative design solutions and timely delivery.

Today, the company has over 40 professional engineers under management, and a state-of-the-art factory. Decovision has become the interior contractor, design and engineering firm of choice for many project owners, contractors and organizations.

Our large dedicated joinery & furniture factory in Mussafah gives us an edge over other interior design solutions providers. Having our own facility means we can accommodate large volumes of work while exercising quality control at every stage. This is obviously of huge benefit to our customers in terms of timing and quality. This, coupled with the expertise of our people, has been the key to our continued success.

We never forget that the success of our clients results in the success of our own business. We never lose sight of that. Across design, engineering and production, we aim to work seamlessly with our clients, delivering knowledge and expertise that helps them make informed decisions and to better appreciate the quality of our products, the beauty of our creative work and the professionalism of our engineering.

Our engineers develop an in-depth understanding of specific requirements and the disciplines that drive them. We create product solutions that not only fulfil our client's brief and the intended purpose of the space, but go further to add value to the project.

OUR Aspirations

VISION

To be the UAE's leading interior contracting & design company. We will earn our customers' enthusiasm through continuous improvement, driven by teamwork and the innovation of the latest and most advanced design concepts.

MISSION

To exceed our customers' needs and expectations by delivering the highest quality products and providing timely professional solutions.

COMMITMENT

At Decovision, we appreciate the cultural diversity of the region, its customs and its traditions. We also appreciate the need for flexibility in our role as service provider, whether at the design stage or on an administrative level arranging for permissions.

Our engineers are able to provide the necessary in-depth experience and knowledge of the local project environment, which is essential to success.

- . We deliver results
- . We meet deadlines
- . We are accessible
- . We are responsive

This is our grand commitment to our clients: a code of ethics, drawn from extensive years of experience in the market, and a keen understanding of what is important to our clients.

OUR Services

Our responsiveness to the needs of the market and our clients over the years has helped us build an outfit that specializes in delivering results without exception.

From the initial brief to final designs to project completion, we are always completely focused on the satisfaction of our clients. The fact that we have our own joinery and carpentry factory means that we are able to provide creative solutions and quality products. It also means that we have the resources to meet our clients' demands and project deadlines.

Through combining emerging technologies with creative production practices, our services have rapidly expanded to answer the sophisticated demands of our clients. Our association with reputable international firms that specialize in various areas of furnishings, textiles and interior design means we have the depth and breadth of resources to help clients implement projects and realize objectives.

Our range of services is constantly expanding to help our clients deal with the most complex projects in today's ultra-modern and high-tech environment.

OUR SERVICES INCLUDE BUT ARE NOT LIMITED TO:

- Concept interior design works
- Custom-made furniture
- Custom upholstery
- Decoration fixtures and interior fit-out works
- Joinery works, doors, panelling, wardrobes and kitchens
- Turnkey projects (hotels, palaces, showrooms and offices)

OUR People

At Decovision, we are the sum of all our parts. Every member of our 450-strong workforce, from management down to factory worker, is an integral part of our success; their experience and expertise is a recognized asset to the company and has helped us build a reputation for unsurpassed quality, delivery and innovation. For this reason, we look after our people. We truly believe that the key to long-term success is to keep those who make Decovision a success happy, satisfied and excited to share their ideas.

That's why we have created an environment that offers the opportunity for growth and learning at every stage and allows employees to enhance and hone their skills, competence and ability at every stage of the company's process.

The company's day-to-day operation is managed by Mr. Youssef Farran, who has amassed years of experience executing large-scale projects over the course of his career. His experience in design and decoration works and the extensive industry network he has cultivated over the years have contributed greatly to Decovision's success and to it maintaining its position as one of the leading companies in the UAE's interior contractor and design sector.

“At Decovision, we are
the sum of all our parts”

OUR Factory

It's good to create an innovative and show-stopping design on paper; it's even better to create it with the knowledge that the design can be executed to perfection.

Having our own joinery and furniture factory means we can confidently present innovative ideas to our clients, secure in the knowledge that we control every aspect of quality in the finished product. Our designers work closely with skilled craftsmen at the factory to ensure that the final output matches the detailed specifications envisioned in the initial presentation to the client.

The Vision Furniture & Decoration factory in Mussafah has been a part of Decovision since 2003. The 24,000m² facility employs over 550 skilled workers and produces a vast range of wood products, decoration, carved wall panelling, doors, wardrobes, kitchen cabinets, curtains and all kinds of furniture. The Vision Furniture & Decoration factory has recently seen international industry-standard upgrades with investment in state-of-the-art machinery including CNC router machines, automatic edge bands, electronic beam saws, pressurised painting booths, drying chambers among others.

The new 8,500m² extension places the factory among the biggest and most well equipped furniture and joinery factories in the UAE. The new expansion has allowed Decovision to extend its operations to include an upholstery division that provides the factory with a wide range of options and quality control. Leather, velvet, woven fabrics, hair, fibre, down and flock are among the vast number of materials used at our new factory. With padding or stuffing, cushioning or covering, our upholstered furniture is fabricated to the highest quality with particular attention to a flawless finish, seating comfort, and flair.

24,000m² STATE OF THE ART FACTORY
and over 550 skilled workers

OUR Group

Decovision has been jointly owned by

Etihad Towers - Jumeirah Hotel

ELEGANCE & SOPHISTICATION synonymous with the JUMEIRAH SIGNATURE

The first Jumeirah hotel in Abu Dhabi has 400 guest suites and 182 serviced apartments, all decorated with the quiet elegance and sophisticated style that have become synonymous with the Jumeirah signature. The opulent theme is carried through from the rooms to public areas of the hotel, including the lobby, spa, gymnasium, beach bar and pool bar.

Jumeirah's nine restaurants vary from casual dining outlets to fine dining establishments, each with interiors and decor that reflect the theme of each restaurant. The observation deck, already stunning with sweeping vistas of the capital, is decorated in the distinct Jumeirah style to complement the hotel and enhance the views over the cityscape.

Colors dominate these rooms, which have an air of purity and opulence. Yet the designs and motifs are understated, refined and unobtrusive. The sense is that of space, and the juxtaposition of modern furniture design with traditional motifs, complemented by a warm yellow light, is indicative of richness and affluence.

Marriott Kigali Hotel

A MASTERPIECE of Eastern & Western DESIGN INFLUENCES

~

Marriott is one of the most established and strong hotel chains in the World, managing over 2,000 hotels worldwide. The Marriott brand is a success story based on service quality across the world, and it is a vote of confidence in Decovision that we were chosen for this prestigious project in Rwanda.

The 252-room five-star Kigali Marriott Hotel is one of the most opulent hotels in the African continent, and sets new standards in luxury, comfort and innovation in hospitality interior design.

The Kigali Marriott boasts amazing VIP dining and entertainment facilities, including a specialty restaurant and pool grill. The airy lobby lounge is a place where guests are encouraged to relax throughout the day, hold impromptu meetings with colleagues, or simply socialize with friends.

The hotel is an architectural masterpiece throughout, offering a fusion of the best eastern and western design influences in an atmosphere of unmatched modern grandeur and timeless elegance. These are demonstrated through the giant mural, forming the centrepiece of the restaurant, representing Africa's heritage and economic growth; and a regal majlis on the second floor.

STYLISH APPEAL with fresh colors AND SLEEK FINISHES

The Khalidiya Palace Raynaah Hotel in Abu Dhabi is an oasis for the Middle Eastern businessman and tourist alike. The hotel is modern and subscribes to a clean and simple luxury in its design. Only the very best is served to guests and expressing gratitude is not only the dine thing, it is rude not to compliment the host on a dinner well eaten.

The decorative glass mosaics add a sparkle, reflecting the myriad crystal chandeliers throughout communal rooms. Islamic architecture has used mosaic techniques to decorate religious buildings and palaces since Muslims conquered the eastern provinces of the Byzantine Empire. Here the mosaic patterns take their reference from the first great religious building of Islam, the Dome of the Rock in Palestine, which was built between 688-692 AD.

There are other influences too. Rich floral motifs and crystal-studded columns follow Roman traditions. Another striking element the laser-cut floor-to-ceiling palm trees in the lobby area, taking reference from the palm trees that are indigenous to the region.

Hospitality and generosity take pride of place in the Middle East, and so, when it comes to dining, meals are served to share and eating is a communal activity that truly serves as a form of bonding. This concept has been established at Khalidiya Palace Hotel, with large fluid areas populated with chairs and tables that can be moved, grouped and rearranged at will, depending on the number of guests invited.

Danet Holiday Inn

~

A MINIMALIST APPROACH offering comfort IN EVERY WAY POSSIBLE

The eight-floor Danet Holiday Inn in Abu Dhabi sets a high bar in business hospitality. The hotel offers over 200 standard and executive rooms and private suites, state-of-the-art communication services, cafés, and premium facilities, including a roof top leisure center.

Sophisticated dark wood and cool stainless steel, punctuated by fresh flowers and complemented by clean marble floors, make for a contemporary feel with a warm, fresh appeal. The rooms exude a quiet confidence with a minimalist approach that speaks to comfort in every way possible. Colors are subdued in private rooms for a relaxing and calming atmosphere; in stark contrast, communal receptions are vibrant with playful splashes of color and striking patterns.

The Silk Routes were important paths for cultural, commercial and technological exchange between traders, merchants, pilgrims and urban dwellers from Ancient China, India, Tibet, Persia and Mediterranean countries for almost 3,000 years.

The interior design has borrowed heavily from the immense variety of goods, textures, colors and flavors that the Silk Routes made available across the region. This is evident in the selection of cushion covers, in the patterning on upholstery and carpeted areas. It also plays out on the liberal inclusion of artifacts such as vases and visual displays throughout the hotel.

Catch Restaurant

~

HINTS OF THE OCEAN and fruits of the sea

The culinary character of Catch plays a cinematic role in a hospitality scene that evokes all senses in a far more immersive manner than just being a restaurant. With artistic presentation of its inventive seafood cuisine, gracious performance of its staff, panoramic views of Arabian Gulf, stylish décor and seductive mix of contemporary music, Catch is a journey and destination unto itself.

The chic venue boasts stunning views of the waterfront from its large windows and roof terrace bar. The white and silver colour scheme, abundance of highly lacquered lightwood, and stylish simplicity is reminiscent of ocean yachts.

With its gourmet seafood fusion cuisine, exotic cocktails, an extensive wine list and warm hospitality, Catch offers a unique dining experience full of theatre and artistry.

The restaurant's maritime theme is prevalent throughout, with nods to the UAE's pearl diving heritage, and can be seen in the custom decorative fittings suspended above the bar, and lobster pot-styled pendants in the terrace and stairwells, the rope detailing on the seating and the spectacular fish scale beverage bar, amongst others.

It's all about the details

1. Main beverage bar with stainless steel fish scale cladding.
2. Tree slab private dining table.

AUTHENTIC LEBANESE CUISINE in an authentic Lebanese setting

The stylish 300-seat restaurant is set over two floors; the ground floor and terrace are exclusive dining areas where guests can enjoy waterside views; the second floor hosts Byblos Sur Mer's lounge bar where singers and performers perform live throughout the evening. In addition, spacious outdoor seating areas are perfect for relaxing with a shisha while gazing out across the Gulf.

Inside the modern Arabic style is sophisticated yet informal, with comfortable seating and capacity for large family groups. Dark wood is prominent with stone textured effect walls. Hints of decorative wrought ironwork are evident in window screens and lanterns. Tall oriental style arches allow natural washes of light into some areas, and the generous room sizes and high ceilings create a feeling of space. The overall effect is one of luxury and warmth, capturing the essence of authentic Lebanese hospitality.

Hakkasan Restaurant - Abu Dhabi & Dubai

AWARD-WINNING cuisine at the landmark EMIRATES PALACE

~

Enter a haven of sophistication at Hakkasan Dubai – an award winning independent restaurant where exquisite food and modern, authentic décor combine to create a unique dining experience.

Geared in the principles of emotional architecture and feng shui, Hakkasan's interiors evoke a sense of balance – the perfect complement of yin and yang that is mirrored in all aspects of Chinese culture, from cuisine to hospitality. The heady mix of marble, wood, steel, stone and leather, brings rich textures to life while forms are simple and elegant – the perfect evocation of modern Chinese fine dining at Emirates Palace Hotel.

The Far East, close to perfection

Hakkasan restaurant offers a modern take on Chinese cuisine, one that celebrates freshness and purity of flavour and where signature Hakkasan dishes like Peking Duck with Caviar and Grilled Wagyu Beef with King Soy Sauce are served alongside a set of new dishes created especially for an Emirate clientele.

Comprising a 152-seat restaurant, bar and lounge as well as four private dining rooms, the 16,000 sq ft space is separated by carved wooden screens and latticing that echo the rich interiors of the flagship restaurant in London.

CUISINE AND INTERIOR perfect the Yin and Yang

Hakkasan's interiors evoke a sense of balance – the perfect complement of yin and yang that is mirrored in all aspects of Chinese culture, from cuisine to hospitality. The heady mix of marble, wood, steel, stone and leather, brings rich textures to life while forms are simple and elegant. Embroidered furniture and marbled Chinese forms enrich the space, and the main dining area is crafted into a wooden cage surrounded by backlit blue glass and a stainless steel frame.

Whatever the occasion – whether a celebratory dinner, romantic rendezvous or business lunch – Hakkasan is sure to leave a lasting impression.

Mezlai Restaurant

UNPARALLELED GRANDEUR harking back to a tradition

Steeped in tradition, Mezlai is a veritable showcase of Middle Eastern stately charm and grandeur. The style takes cues from the grand mosques and private residences of the elite of Cairo, Damascus and other Oriental Cities.

The traditional Emirati Room exudes warmth, with earthy colors, soothing lighting and congenial patterns with masharabiya motifs that add an elegant charm to the 160-cover restaurant.

Examples of unrivalled splendor in craftsmanship are everywhere. For example, the tables with their marquetry use different woods such as ebony or box, inlaid so as to emphasize the geometric patterns.

Despite its impressive dimensions and formality, the VIP room is given an added air of privacy and intimacy by the wooden rafters in the ceiling. The beautiful wooden doors return to a time when wood carvers of Persia, Syria, Egypt and Spain produced the most elaborate and minutely delicate woodwork, as well as richly decorated paneling and other designs for wall linings, ceilings, pulpits and all kinds of fittings and furniture.

The arches are similarly carved to make a beautiful complement to the doors and stained glass settings finish off the effect and make a grand statement.

Red has been used as an accent in the furniture and accessories in the restaurant; as a social and engaging color, which sits harmoniously with the tradition in the region of generous hospitality and the sharing of a meal as a collective and communal activity.

A grand mural representing Abu Dhabi's heritage and economic growth forms the center piece of the restaurant, which offers indoor and outdoor dining areas, as well as a secluded VIP dining areas and a majlis on the second floor.

A TRIBUTE TO THE AGE of the great ocean liners

Scotts Sea Food Restaurant at Etihad Towers, Abu Dhabi has something of an opulent, old-fashioned feel, and is strongly influenced by the Art Deco aesthetic of the great ocean liners of the 1920s and 1930s.

The main restaurant seats 180 guests; the upper deck provides an additional area for dining and post dinner drinks in the cooler months.

Everywhere you look is gleaming and glossy with reflective mosaic tiling and dramatic lighting. Pale-green banquettes, keeping with the ocean liner theme, run around the edges of the oval room.

One of the most impressive features is the central chandelier, adding grandeur to any occasion. For those seeking an elegant and grown-up experience, that isn't too oppressive or intimidating, Scotts is their number one port of call.

Li Beirut Lebanese Restaurant

MOODY, EXOTIC AND UNIQUE reflecting Beirut origins

This exquisite restaurant, located in the heart of Abu Dhabi, takes fine Lebanese dining to a whole new level. The décor is chic yet warm, the staff knowledgeable and attentive. But what really sets Li Beirut apart is the passion of its chef and his team.

Li Beirut's vision is to revolutionise and modernise Arabic cuisine, and the ambition is shown in every dish. From the foie gras kebbeh starter to the signature main course of zaatar crusted rack of lamb accompanied by sweet potato and truffle, in addition to scrumptious traditional favourites, everything on the menu is a masterpiece.

As too is the interior design; based on a Lebanese bar restaurant, the restaurant offers a level of intimacy and service that goes far beyond expectation. Moody deep reds and neutral slate greys conspire to create a feeling of the exotic, while geometric patterned screens reflect its Beirut origins.

Emirates Palace - Anantara Spa

OASIS OF BEAUTY grace and tranquility

Rooted in the timeless healing traditions of the world's richest cultures, Anantara Spa at the Emirates Palace Hotel has been designed to restore balance and harmony between body and mind in an oasis of beauty, grace and tranquility. Intoxicating aromas of the world's most exotic elixirs and oils are used in treatments designed to deliver radiance, healing and a quiet sense of inner and outer wellbeing.

The name Anantara is derived from the ancient Sanskrit meaning 'without end' and true to its definition the spa evokes a timelessness that is in harmony with wellbeing and the calming healing power of time.

A signature color palette of reds is apparent throughout the spa for very good reason. Roses were very popular with the Romans, the ancient Egyptians and subsequently the Mughal dynasties. Red roses are a preferred choice in the preparation of essential oils as they have the sweetest scent of all flowers.

Oriental opulence and splendid plush interiors, luxuriant drapery, silk hand woven rugs and wonderful diwans are complemented by ornate light fixtures and extravagant palms to create an aura of old-world luxury that completely whisks the guest away into a relaxing and indulgent atmosphere that elicits a sense of comfort, ease and wellness.

The 3,000m² Villa D concept is based on modern, classic and Japanese styles combined to create a VIP space for everyday modern and elegant living.

Each room is set as a theatrical stage, with dramatic architectural details and features and lighting that creates an atmosphere of excitement. One such feature is the flying spiral staircase in stainless steel and glass that connects the lower basement swimming pool to all levels of the villa.

A warm, earthy color palette and soft lighting create a luxurious, yet homely, ambience which counters the expansive marble walls and floors.

Villa D was awarded 'Interior Design of the Year: Residential' at the CID Awards in 2009.

Penthouse Project

A DECADENT, STATELY SHOWPIECE in classic Baroque style

The interior design of a private residence says much about the personality and style of the owner. For this penthouse project, Decovision worked with the owner to capture a dramatic, opulent and classic Baroque look – a style adopted by European royalty in the seventeenth century and the preference of palaces in Europe through the mid-eighteenth century of which Louis XIV's palace at Versailles is the most renowned.

The Baroque color palette is often rich, incorporating dark reds, purples, blues or greens to enhance gold accent features that are commonly used to decorate mirrors, art, and accessories. Interiors are highly detailed, including intricately carved wood detailing paired with luxurious textiles used for furniture, wall, and window coverings. These fabrics are often damask or floral patterned.

Hand-woven rugs are placed to soften spaces. Furniture is intricately detailed to accent embellishments with curved legs, carved details, and gilding. Other design features include large mirrors, crystal chandeliers, intricately carved doors, doorknobs, and pulls. All the elements come together beautifully to create a decadent, stately showpiece.

SPACE, LIGHT & FUNCTION
working together beautifully

The 2,800m² Arabtec offices in Abu Dhabi have a modern and fresh feel with a palette of colors that both relax and stimulate. A signature red is used to highlight aspects of dynamism, while the muted greys and creams add a sense of functional efficiency.

Geometric forms set a formal and professional tone that's just right for business. Floor to ceiling glass wall partitioning and doors maintain a feeling of space and light while offering soundproofed privacy for meetings.

STYLISH AND FORMAL meets comfort and space

The 4,200m² Aabar offices at Ipic tower in Abu Dhabi exude a quiet confidence. Featuring open expanses of marble flooring, uncluttered walls and floor-to-ceiling decorative wood paneling, the feeling is that of a high-end showroom.

The long reception desk makes a dramatic impression on visiting clients. Distinct working zones – meeting rooms and breakout spaces – are furnished with modern, utilitarian style chairs and tables, punctuated with plants or vases of natural displays. Warm and luxurious contrasting colors have been used throughout to create a richness while, at the same time, soften the environment.
